About Us

We Green City Bio-Tech established in 2020-2021 from its parent company a 24-year-old Green World Biotech (GWB) established in 1992 with the main focus on Agriculture, Horticulture, Coconut, Spices & Herbs. We feel proud to introduce ourselves as one of the pioneers in the field of HI-TECH AGRI-HORTI consultancy and services, the fine art of Natural Science combined with the Innovative Technology has brought great success in the field of Research and Development.

Our sustainable efforts led to the breakthrough in the field of Agronomy, Horticulture, and Medicinal and Aromatic Crops. We GCB with Enhanced Biofuels and Technologies India Private Limited, focus on Green energy technology for the production of energy using non-edible feedstocks such as Jatropha, Microalgae and Biomass as its in-house R&D named International Biofuel Research and Development Centre (IBRDC) to support its Commercial application, Processing technology, Renewable energy, Biotechnology, Microbiology and Phycology of Jatropha microalgae cultivation.

The company has undertaken research and development in various fields, to apply scientific knowledge to the design, development, processing and distribution of alternative BIO-INPUTS (Bio-Fertilizer, Bio-Control agents, Enriched Manures, Bio Fungicides, Bio-Pesticides). We consist of a team of 36 eminent scientists and experts in the field of Agriculture, Horticulture, Silviculture, Biotechnology, Microbiology, Genetics & Cytogenetics, Plant breeding, Irrigation and Integrated Pest and Disease Management and Irrigation and Weed management.

Specialized Knowledge

(TISSUE CULTURE, ORGANIC FARMING, VERTICAL FARMING, AQUAPONICS, HYDROPONICS)

We are experts in the conversion of BARREN LAND into CULTIVABLE LAND and provide leadership to the technical department to improve performance efficiency by periodically guiding and enriching the quality of planned and produced works. Implementation of high yielding varieties and overall development of farm management bio-inputs (bio-fertilizers, bio-control agents, fertilizers & proper agronomic practices) frequently testing of soil PH, nutrients and available dissolved salts, PH, EC in the water. Analyze trends in the program, identifying issues and developing and recommending solutions. Implement, manage, supervise and evaluate all activities related to the technical activities. We also provide training and all extension activities to the farmer producers.

OUR PRODUCTS

- *Azospirillum*
- *Phospho Bacteria*
- *Potash Bacteria*
- *Rhizobium*
- *Bio-NPK*

Bio-Control Agents

- *Pseudomonas Fluorescens*
- *Trichoderma Viride*
- *Verticillium lacani*
- *Bacillus substilis*
- *Beauveria bassiana*
- *Metarhizium anisopliae*
- *Paecilomyces lilacinus*

Enriched Liquid & Fertilizer Organic Manure

- *Fish Amino Acid*
- *Amirtha Karaikal*
- *Organic Growth Boosters*
- *Pachakavya*
- *Jeevamrutham*
- *EM-Solution*
- *Humic Acid*
- *Vermicompost*

Bio-Pesticide

- *Neem Oil*
- *Pungam Oil*
- *Bio-Weedicide*
- *Vam*
